

Transitions

McDaniel Metals manufactures knocked down transitions that precisely fit all major manufacturers' equipment. Options are available to customize our transitions to meet the demands of markets nationwide including:

- Metal thickness up to 22 gauge
- Insulation thickness and R-value from 1/2", R-4.2 to 2", R-8
- Bottom flat or offset construction
- Boxed and labeled with a barcode label
- Available flanged openings
- Custom lengths
- Available pinned insulation
- Available uninsulated
- Available unboxed
- Pittsburg or snap-lock construction
- Beaded for strength
